The Crossings Collection illustrates the decorative tile making technique of encaustic or inlaid ceramic tiles. As early as the Middle Ages, these tiles were used in historic public buildings and churches throughout Europe, but especially in England. This art form expanded throughout Europe and into North America. A variety of designs from the Victorian, Art Nouveau, Mideast and Eastern cultures and Arts and Crafts style are available to choose from in this collection. Traditional borders and moldings are also available to finish out the installation.

Encaustic tiles are high-fired ceramic clay tiles. The design is pressed or stamped into firm clay and then the indentations are filled with a contrasting color of clay. The design can be made in as few as 2-colors or as many as 6-colors. Customize your design, choosing from 4 colors of clay bodies and 23 colors of inlay (overlay) colors. Each design will be a product of your own creativity. After the tiles have been fired and cooled, a finish is applied to the surface. This stain is used to enhance the "antique" appearance of the tiles.

These tiles are suitable for indoor and outdoor wall and floor installations: kitchens, bathrooms, showers, fireplace surrounds, wet bars, wine cellars, stair-risers, feature walls, entry floors and patio floors. These tiles can be used in fountains and pool surrounds in temperate climates only. Suitable for both Residential and Commercial projects.

- **WKP10294 Rexroth-34 4x4"** Buff Clay/Pistachio Overlay
- **WKP10175 Shahnama 4x4"** Ivory Clay/Black Stain Wash
- **WKP10329 Nipon-54 4x4"** Ivory Clay/Persimmon Overlay
- **WKP10119 Aldington-5A 4x4" Inlay** Grey Clay/Butter, Celadon, Chestnut Inlay
- **WKP10358 Elmote Border-21 4x4"** Ivory Clay/Jade Inlay
- **WKP10342 Manchester 4x4"** Grey Clay/Chocolate Overlay
- **WKP10341 Tabriz - 87 2x2"** Red Clay/Burgundy Overlay

**INSTALLATION:** For most applications we recommend installing with a thin set adhesive and using sanded grout. The grout should be sealed with a penetrating sealer after installation, especially in wet areas. The grout sealer prevents the build-up of dirt, grease, mold and mildew in the grout joints. Cleaning and resealing the grout is recommended once a year, preferably every 6 months.
MOULDINGS

available clay color bisques

Ivory Clay
Buff Clay
Red Clay
Grey Clay

Choose among 4 bisque colors and 23 overlay/inlay colors to create your own signature look.

These same bisque and overlay colors can be used as solid color field tiles. Crossings offers an extensive selection of sizes and shapes for any project.
