

# ABBHEY STONE

COLLECTION

COUNTRY FLOORS®

ABBEY STONE

Abbey Stone embodies the way time alters and shapes the appearance by adding its special patina over the centuries.

Tribute to the grace that time lavishes with a smooth yet durable finish, ready to take any challenge.

*Timeless connexions*

04. RECOMMENDATIONS

WAREHOUSING

In order to guarantee the characteristics of the finish the product must be kept in its original packaging until the time of fixing. If the product is likely to be stored for a long period of time it should be suitably covered.

TILE FIXING

To ensure the products adhere correctly to the surface, it is essential to use specific adhesive and grouting material. This must also be suitable for the environment they will have to withstand. Fitting with traditional mortars does not ensure good adhesion. Due to the nature of the material there may be dimensional variations between pieces. Therefore , all types of joints must be planned and carried out correctly: structural, perimeter, expansion and installation joints. Fitting tiles without joints is not advisable from any technical point of view as this may lead to various problems. For an optimal result we advise to use 2 mm (0.08”) grout.

MAINTENANCE AND CLEANING

Once the materials have been fitted, it is advisable to remove any remaining adhesive and grouting material by using a commercial descaling product designed especially, diluted with water . The descaling product must not remain in contact with the surface to be cleaned for more than 5 minutes. As a general guideline, powder dertergents should not be used, not wire wool or abrasive materials. Generally a sponge will be sufficient with warm water and liquid neutral soap. Then rinse with plenty of clean water.

CHROMATIC VARIATION

Abbey Stone Collection has been designed with a high chromatic variation between pieces. Prior to any installation, range of tiles should be checked by the client. No claims will be accepted after installation.

WARNING!

This collection reproduces traditional hand made tiles, this is the reason why there are slight dimentional differences between pieces (variable lengths and widths), which are part of the intended aesthetic. It is advised to adjust each one of the pieces in the process of installation due to the dimentional differences, instead of using spacers. As a result, these differences give the character, craftsman feel and a high aesthetic value.

05. TECHNICAL FEATURES

Dry-pressed porcelain tiles whith water absorption B la ≤ 0,5% for interior and exterior floors and walls.
