PEDRALBES™

Country Floors proudly introduces Pedrables, inspired by the beautiful terra cotta floors from a 14th century monastery in Barcelona.

Each tile is made according to centuries old traditional methods with carefully selected clays to ensure an incredibly reliable, high quality terracotta.

Available in two standard colors and 5 special colors. Choose between Original Hand Smooth or Vintage texture and Waxed or Matte finishes. Countless sizes, shapes; decorative patterns; borders and trims to create your own unique space.

USAGE
The waxed finish is intended for INTERIOR use only. It is finished with our natural paste wax and applied by hand to each tile to achieve a beautiful and natural low gloss patina. A final coat of wax is required after installation to achieve the final desired look. The wax will also repair most scratches and can be used to maintain and repair the tile surface over time. Pedrables Antique Terracotta is hand made with some imperfections which are intended and inherent with this type of tile.

INSTALLATION

1. Remove tile from several boxes at a time to blend color variation between different boxes.
2. DO NOT USE any sealers before installing or grouting the pre-waxed Pedrables tiles.
3. It is recommended to install these tiles using the Thin Set Method and thickest option.
4. Back buttering of the tile with thin set cement is recommended to help compensate for thickness variation.
5. Install tile normally, according to ANSI specifications or other local required standards.
